REF: 1083

Description

This exceptional lamp is one of the finest we have seen and was almost certainly commissioned for a county house of repute. Manufactured circa 1910 the frame is constructed of brass and steel which has been silver-plated, this has tarnished over the years and retains a wonderful patina. The shades are aluminum and are original to the lamp, they have a beautiful hammered handmade texture and a base diameter of 22 inches (55.88 centimeters), they must have been considered very experimental at the time of manufacture.
