

Antique Billiard Snooker pool table light handmade

Sold

REF: 1118

Description

An elegant copper framed brass plated billiard snooker or pool table lamp with a V shaped arm splay, decorative finials and curved flat work braces. In some parts the brass plating has worn through and the copper can be seen, the effect is very pleasant to the eye. The lamp is complete with 6 hand made silk knife pleated silk shades, these can be changed to a different colour if required. The lamp needs re-wiring and this can be done once we know the voltage system of final destination.
